Profile Summary

MSc Statistics graduate with practical experience in data analysis, statistical modeling, machine learning, and business intelligence tools. Skilled in Python, SQL, Power BI, Tableau, and Excel with experience handling large datasets and developing data-driven solutions through academic projects, virtual simulations, and internship experience. Strong analytical problem-solving ability with a passion for transforming data into actionable insights. Seeking for a Data Analyst role to leverage analytical and visualization skills to support data-driven decision making.

Skills

Statistics

- Regression Analysis
- Time Series Forecasting
- Hypothesis Testing
- Statistical Modeling

Programming Languages

- Python
- SQL(MYSQL,PSQL)
- R

Analytical Tools

- Power BI
- Tableau
- Advanced Excel

Experience

ICT Academy of Kerala (ICTAK)

Sept. 2025 – Jan. 2026

Research and IT Solutions Intern

Kerala, India

- Implemented training analytics dashboards using Power BI and Python covering 180+ programs and 27 trainers
- Designed 10+ KPIs to track learner progress and faculty performance
- Cleaned, transformed and modeled datasets using Power Query
- Created interactive visual reports to support training performance monitoring and decision making
- **Tools:** Power BI, Python, Excel, Power Query

Projects

Rice Yield Time Series Forecasting Project

2025

R, Time Series Analysis

- Processed 22 years of seasonal crop yield data to identify production trends
- Developed ARIMA forecasting model reducing prediction error by 19%
- Evaluated models using RMSE, MAE, MAPE and Theil's U
- Detected 2018 flood anomaly using outlier detection
- **Tools:** R, ARIMA, Time Series Analysis
- **Project Repository:** GitHub

Retail Store Trial Performance Analysis

2026

Python, Statistical Analysis

- Analysed 260K+ transactions to evaluate store layout trial impact
- Identified control stores using correlation analysis
- Quantified 33% sales uplift using statistical testing
- Delivered data-driven business recommendations
- **Tools:** Python, Pandas, NumPy, Statistical Testing
- **Project Repository:** GitHub

Inventory and Supply Chain Analytics Dashboard

2026

Power BI, Data Visualization

- Developed Power BI dashboard tracking inventory KPIs
- Evaluated inventory turnover and lead time metrics
- Developed KPI cards and interactive filters
- Enabled regional performance comparison
- **Tools:** Power BI, Excel
- **Project Repository:** GitHub

Virtual Experience

British Airways Data Science Virtual Experience

March-2026

Remote

- Trained a Random Forest classification model on 50K+ customer records achieving ~85% prediction accuracy
- Executed data preprocessing and feature engineering on 10+ variables
- Identified key booking drivers such as purchase lead time, route and length of stay using feature importance analysis
- Conducted 5-fold cross validation and generated insights to support customer conversion strategies
- **Tools:** Python, Machine Learning, Random Forest, Data Preprocessing

Lloyds Banking Group Data Science Virtual Experience

March-2026

Remote

- Examined and integrated banking datasets and performed exploratory data analysis to identify customer churn indicators
- Developed and compared Logistic Regression and Random Forest models achieving 78% prediction accuracy
- Improved model robustness using cross validation and hyperparameter tuning
- Engineered 10+ predictive features and evaluated models using ROC-AUC, precision and recall
- Generated insights on key churn drivers to support customer retention strategies
- **Tools:** Python, Machine Learning, Logistic Regression, Random Forest, EDA

Tata Data Analytics Virtual Experience

Feb.-2026

Remote

- Cleaned and validated 500K+ retail transaction records to improve data reliability
- Performed revenue trend analysis across 12 monthly periods to identify seasonal sales patterns
- Identified top 10 revenue generating countries and customers to support marketing strategy
- Developed Excel visualizations to communicate business insights
- **Tools:** Excel, Data Cleaning, Data Analysis, Data Visualization

Education

Master of Science in Statistics

Aug. 2023 – July 2025

University of Kerala

University College, TVM

Certifications

Microsoft Power BI Data Analyst Professional Certificate - Microsoft via Coursera (2026)

Certified Specialist in Data Science and Analytics - ICT Academy of Kerala (2025)

Tableau 10 Essential Training - LinkedIn Learning (2025)
